Are you looking for a superior Quality and Affordable Price Road Construction Equipments for Your Next Project?

Vinayak Equipments – *Leading Manufacturer, Supplier and Exporter of wide range of Road Construction Equipments and Machineries*

Adm Asphalt Plant

Vinayak Equipments is a family owned firm over a decade's engaged in manufacturing, supplying and exporting different types of asphalt plants, construction equipments. We are recognized dealers of ADM Asphalt Plant in Ahmedabad and across the globe for offering the best range of plants to our esteem customers. These offered ADM Asphalt Plant can be availed in four series of continuous-flow asphalt plants ranging from 60-425 TPH and accessible in portable, skid-mounted or reloadable versions. These provided ADM's asphalt plants operate in some of the world's most demanding environments, and the experienced team provides service and support every step of the way. From onsite installation and startup training to product evaluation and verification, we are developed with dedicated staff to help the producers build and maintain a profitable business.

Asfalto Planta De Mezcla Por Lotes

Vinayak Equipments marca más reconocida en la industria de fabricación de equipos de construcción de carreteras. Nuestra gama fabricada de plantas mezcladoras de asfalto por lotes proporciona la consistencia que es crucial para la calidad de su mezcla. Todos los procesos y componentes de las plantas que se ofrecen se desarrollan con mucho cuidado para garantizar que la alimentación, el calentamiento, el secado, el cribado y la mezcla se combinen a la perfección. Además, estas plantas mezcladoras de asfalto se consideran equipos clave para cualquier empresa de construcción de carreteras. La operación de esta planta mezcladora de lotes discontinuos tiene muchas funciones y las hace un poco complicadas en comparación con los tipos de tambor. Aunque hay dos tipos de plantas, el propósito que tienen las plantas de mezcla por lotes y las plantas de mezcla continua es el mismo. La distinción radica en la técnica con la que crean el asfalto.

Asphalt Drum Mix Plant

Empowered with rich industrial experience we are recognized and leading manufacturer, supplier and exporter of wide range of Asphalt Drum Mix Plant which is made accessible by us in different configuration alternatives as well as in most recent technology support so as to afford for consistent process handling. The offered range of Asphalt Drum Mix Plant is built to stringent international and Indian standards that have found acceptance and acclaim

by all users. They are carefully inspected and tested for quality and consistency by experienced engineers, faithfully stubborn on quality. The checks begin with the incoming material and components and end only when the finished product is tested and despatched. We are unswerving to afford encouraged services of the highest attainable standards for complete accomplishment of our esteemed customers in terms of sales and service. Asphalt plant works on the principal of mixing comprehensively with bitumen/asphalt at assured temperature to give a proper mix for paving.

Mobile Plant Bitumen

Pioneers in the industry, we offer most demanding Mobile Plant Bitumen which has been designed and developed by using latest technology and as per set international standard. This offered Mobile Plant Bitumen is used for the construction of roads on small or medium scale industry. Moreover the offered Mobile Plant Bitumen are even called as asphalt mixing plant which is a road surface paving material production equipment that is widely worn to blend cold aggregate, liquid bitumen and other admixture to form asphalt mix or blacktop, which is hugely demanded in the road construction industry. Bitumen plant is usually used as the abbreviation for bitumen mixing plant or bitumen production plant. It can be categorized into stationary device and mobile device based on the mobility performance. Engineered to provide trouble free performance with improved fuel efficiency, the mobile equipment is suitable for mixing stone dust, sand and more with correct temperature requirement.

Planta De Asfalto Móviles

Vinayak Equipment es un fabricante y proveedor líder de una amplia gama de plantas móviles de asfalto en la India. Controlamos y fabricamos rigurosamente la planta de asfalto utilizando materias primas de la mejor calidad en nuestra unidad de fabricación de última generación. Estamos desarrollados con un gran equipo experimentado de expertos dedicados a la fabricación de estas plantas de asfalto móviles en especificaciones personalizadas para cumplir con los requisitos de nuestros estimados clientes. Estas plantas de asfalto se fabrican con materias primas de primera calidad de acuerdo con los estándares de calidad establecidos en la industria. Nuestras plantas brindan una mejor calidad de mezcla debido al calentamiento y el tambor de mezcla separados que previenen la quema del betún debido al contacto directo con la llama del quemador en otras plantas tradicionales de un solo tambor. Estos están contruidos de manera robusta utilizando técnicas de precisión y materias primas de calidad, cojinetes extra pesados para una larga vida útil con una planta de mantenimiento mínimo.

Portable Asphalt Plant

We are one of the most prominent manufacturer, supplier and exporter of wide range of Portable Asphalt Plant which is manufactured using quality raw materials and in compliance with the set international standards. We also offer these at reasonable prices and in specifications provided by our customers. With are employed with the team of experienced experts who are engaged in manufacturing the wide range of plants. Moreover the esteem customers can avail from us a qualitative range of Portable Asphalt Plant in varied specifications and manufactured using quality raw materials and advanced technology. Our range is also offered in modified specifications as per the desires of the clients and at competitive market prices. Our Portable Asphalt Plant is continuous drum mix type and modular in construction for easiness of continuance. They are trouble-free in construction and easy to operate and sustain. They are fully automatic as per modern drum mix technology and operated by user friendly electronic control panel.

Usina De Asfalto Mix Lote

Vinayak Equipamentos é a marca mais reconhecida na indústria de fabricação de equipamentos de construção rodoviária. Nossa linha de usinas de mistura por batelada de asfalto fornece a consistência que é crucial para a qualidade de sua mistura. Todos os processos e componentes da planta oferecidos são desenvolvidos com grande cuidado para garantir que alimentação, aquecimento, secagem, peneiramento e mistura estejam perfeitamente combinados. Além disso, essas usinas de mistura de asfalto são consideradas equipamentos essenciais para qualquer empresa de construção de rodovias. A operação desta planta de mistura em lote tem muitas funções e as torna um pouco complicadas em comparação com os tipos de tambor. Embora existam dois tipos de usinas, a finalidade das usinas de mistura em lote e das usinas de mistura contínua é a mesma. A distinção está na técnica com que criam o asfalto.

Usina De Asfalto Móvel

Vinayak Equipment é um fabricante e fornecedor líder de uma ampla gama de usinas de asfalto móveis na Índia. Controlamos e fabricamos rigorosamente a usina de asfalto usando matérias-primas da mais alta qualidade em nossa unidade de manufatura de última geração. Somos desenvolvidos com uma grande equipe experiente de especialistas dedicados à fabricação dessas usinas móveis de asfalto em especificações personalizadas para atender às necessidades de nossos estimados clientes. Essas usinas de asfalto são fabricadas com matérias-primas de qualidade premium de acordo com os padrões de qualidade estabelecidos na indústria. Nossas plantas fornecem melhor qualidade de mistura devido ao aquecimento separado e tambor de mistura que evita a queima do betume devido ao contato direto com a chama do queimador em outras plantas tradicionais de tambor único. Estes são construídos de forma robusta usando técnicas de precisão e matérias-primas de qualidade, rolamentos extra pesados para uma vida longa com manutenção mínima da planta.

Moreover, we take an immense pleasure to introduce our manufactured different types of Road Construction Equipment which are hugely demanded by the customers across the globe.

Our other types of plants flourished across the globe are mentioned below:
